INDIA'S FIRST RAJYOGA THOUGHT LABORATORY

The **Rajyoga Thought Laboratory** is a novel concept focusing on empowerment at the thought level. It is based on the principle that thoughts are the creation of human mind and with the practice of meditation and spirituality one can master his/her own thoughts.

It is a unique project aimed to harness the hidden and still untapped inner power of the mind of an individual. It provides an individual with the opportunity for discovering the true self, develop positive attitude and the art of channelizing thoughts in a positive, powerful and purposeful direction. Spiritual tools including meditation, reflection, visualization, appreciation and listening... are used for learning.

VISION

To empower the thoughts of youth to build a world of peace, love and universal harmony through the means of science and spirituality.

MISSION

- To create spiritual ambience for learning meditation and experiencing inner peace.
- To provide a platform for research on Spiritual Dimensions of life.
- To gain insights on Holistic development through Rajyoga Meditation.
- To enable individuals to gain control over their thoughts, feelings and emotions.
- To create interest among youth for Values & Spirituality.
